

BUILT-IN APPLIANCES

GENERATION FUTURE

GENERATION FUTURE

Creative design solutions and meticulous attention to detail make each one of our Hoover built-in appliances special and unique.

We invest heavily in research and development and select only the best quality materials and beautiful design aesthetics to give you appliances that have been expertly made to blend seamlessly into your home.

Our appliances combine stylish, beautiful looks, with powerful technological performance, so whether you're cooking, chilling, cleaning dishes or doing the laundry you'll get outstanding results every time.

## OVENS THAT DELIVER OUTSTANDING COOKING PERFORMANCE

### SUPER-SIZE OVEN CAVITY 78 LITRES CAPACITY

Hoover Prodigie single ovens range in size from 73-78 litres and offer an additional 45% more space than a traditional Multifunction oven but within the standard dimensions.

The Prodigie can be used as one large cooking zone with five shelf positions and is capable of handling up to five different recipes at any one time.

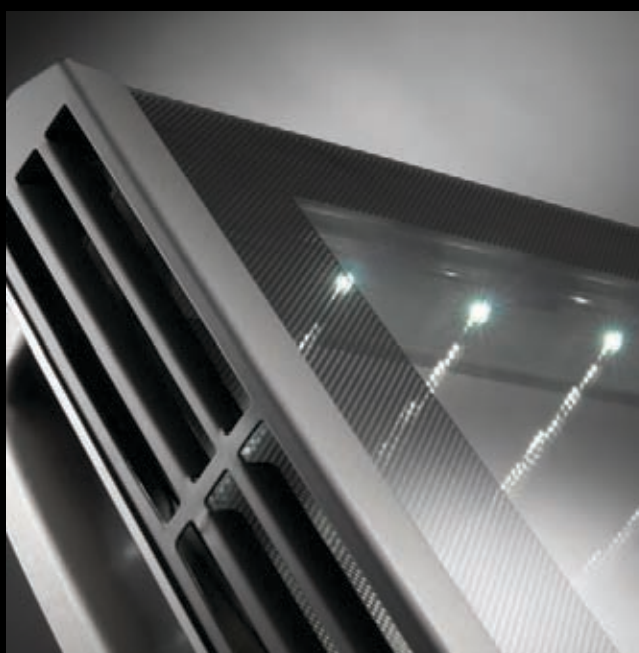

### A DOUBLE OVEN IN A SINGLE CAVITY

The super-size flexi oven offers the space and power of a professional model but with all of the functionality of four separate ovens.

Prodige can be used as one large cooking zone, while the bottom and top cavities can be used as completely separate cooking areas. The large single cavity can also be converted into a double oven by means of a fully insulated divider and with two separate fans in the top and bottom of the oven, plus independent temperature & cooking controls, you can achieve the full flexibility only normally available from a double oven.

### LED VISION

A unique lighting system consisting of 14 tiny LED lights located within the oven door, delivers perfect illumination and complete visibility throughout the entire cooking process.

### LCD DISPLAY TOUCH CONTROL

Prodige's electronic display allows you to choose the oven function, set the cooking time and select the temperature for each of the cooking zones, the graphics also show which of the zones is currently in use.

### PYRO FUNCTION

The Pyrolytic programme is a fast, no mess, oven cleaning cycle. It works by automatically locking the oven door and activating the Pyro cycle, which heats the oven interior to 500°C burning off any grease or food, leaving behind a small deposit of ash that can be easily wiped away with a damp cloth.

### PRO SYSTEM

Inspired by professional catering technology Hoover has developed an exclusive hi-tech air circulation system that evenly distributes heat throughout the oven.

This multi jet ventilation system circulates hot air around the oven cavity via 100 vent holes located on the sides of the oven. This process guarantees consistent cooking throughout the whole cavity and reduces food moisture loss.

## MUSSELS IN POULETTE SAUCE

Serve 4

2kg Mussels	1 Onion
20cl Dry white wine	2 Shallots
10cl Double cream	Celery
15g Butter	1 Carrot
2 Egg yolks	Parsley
	Thyme

Clean and drain the mussels.

Break up the parsley leaves and chop the stems and keep for later.

Peel and chop the onion and shallots and dice the carrot and the celery.

Melt the butter into a large pan add all the vegetables and cook gently for 10 minutes.

Add wine, thyme and the mussels, salt and pepper. Cover and cook for 5 minutes within which time the mussels will open their shells.

Once they are all open remove and drain into a bowl.

Place the pan back on the hob and reduce the juices separately in a bowl. Beat the egg yolks with and cream.

Add to the juices once these have been reduced by 1/3.

Mix quickly, put the mussels back into the juice ensuring they absorb all the juice.

Serve on hot plates and garnish with parsley.

## HOF 75LVX (LEFT HAND HINGED) HOF 75RVX (RIGHT HAND HINGED)

- Multifunction oven
- 15 Cooking functions - 9 in the main cavity, 3 in the top cavity and 3 in the bottom cavity
- Extra large capacity oven – 73 litres, with 5 shelf positions
- Fits into a standard single oven space
- Twin cooking fans & oven divider create two separate cooking zones both with independent temperature control and fully insulated oven divider
- LED Vision lighting system
- Electronic temperature control from 30 to 240 °C
- Full side opening door with integrated oven controls
- Touch control LCD display with icons that indicate which of the two zones are in use
- Cool touch glass door
- Pro-cooking - multilevel air circulation system
- Accessories: 2 shelves, 1 roasting tray, 1 teflon tray, 1 baking tray, 1 pizza tray
- Energy efficiency rating A

## GRILLED BEEF FILLET WITH GARLIC MASH

Serves 4

4 Beef fillets approx 160g each  
1 Tablespoon of paprika  
½ Tablespoon of chilli powder  
and a few drops of Tabasco  
Juice of 1 green lemon  
5cl vegetable oil  
500g potatoes  
15cl milk  
80g butter  
5 Garlic cloves  
2 Tablespoons of double cream

Mix the paprika in a bowl with chilli, oil, lemon juice, Tabasco, salt and pepper.

Place the beef fillets on a plate, cover with the marinade, seal with cling film and let it rest in a cool place for 4 hours.

Boil the peeled potatoes in salty water together with the garlic cloves.  
Drain and mash.  
Add warm milk, cubes of butter, double cream and mix to create a nice consistency.

Cook the marinated beef fillet in a pan or on a grill for 3-4 minutes on each side.

Serve hot with the mash. For those who prefer spicy food add a few more drops of Tabasco.

## ROAST OF CHICKEN BREAST WITH SWEET SPICE STUFFING

Serves 4

800g Boneless chicken breast  
350g Pork mince  
1 Egg yolk  
Parsley  
1 Red onion  
2 Tablespoons of cumin powder  
2 Tablespoons of ground ginger  
5cl Olive oil  
2 Thyme twigs  
500g Small potatoes

Preheat the oven at 180°C.  
Cut into the chicken breast to create a pocket. Mix the pork mince in a bowl together with chopped onion, half of the spices, the egg yolk, chopped parsley, salt and pepper. Place the mix into the chicken breast and tie with string.

Rub the outer with thyme and the rest of the spices, place in a roasting tray and coat with olive oil.

Place in the oven and cook for 1.5 hours. Half way through the cooking time add the potatoes. During cooking turn the breast every 15 minutes and make sure it is kept moist with wine.

Once cooked, remove from the oven, cover with aluminium foil and rest for 15 minutes. Serve with the potatoes and cooking juices.

## A UNIQUE DESIGN

### ATTENTION TO DETAIL

Hoover microwave ovens deliver high speed cooking with the quality performance of a traditional oven and have been aesthetically designed to co-ordinate with the complete range of Hoover cooking appliances, from the handle design down to the curved glass door styling. They're also easy to install, because unlike some models they don't require a separate frame to be fitted to the perimeter of the appliance.

### A VERSATILE MULTIFUNCTION APPLIANCE

All models in the Hoover microwave range are combination appliances and provide the extra flexibility of being able to brown food as well as using traditional fan cooking methods to deliver perfect cooking results but in a fraction of the time.

### STAINLESS STEEL CAVITY

With a stainless steel cavity, Hoover microwaves are extremely durable and have easy-clean interiors which make them more hygienic.

#### **RDCT 140/1**

- Telescopic full-depth pull-out drawer
- Pre-heat crockery function
- Keep food warm function
- Temperature freely adjustable from 30°C to 80°C
- Stainless steel finish
- Anti-slip mat
- Illuminated on/off switch
- Maximum capacity 25kg

### HMC 440TX

- Combination microwave, oven & grill
- LED electronic display - touch control

## EFFICIENCY AND SAFETY

Induction is one of the most innovative and technologically advanced methods of cooking. Energy is directed to the selected cooking zone in a precise, fast, efficient and controllable way. Induction hobs are equipped with induction coils which when electricity passes through them creates an electro magnetic field, this is only activated by the presence of a pan on the hob surface and is responsible for generating the heat to the pan.

N.B Induction technology requires saucepans with a Ferrous steel base.

## COOKING PERFORMANCE

Induction hobs are quick to heat up, operate at 90% efficiency and use less than half the electricity of other hobs, so not only are they less expensive to run but they are also better for the environment.

## INDUCTION: THE FUTURE OF COOKING

### FLEXI INDUCTION HOB

HESD4 Flexi Induction hob with futuristic touch control design has an extra large cooking area that offers flexible, unrestricted zone cooking, allowing multiple pans to be placed anywhere inside the two large cooking zones.

The Hoover Flexi hob can operate as a conventional 4 zone induction hob or zones can be combined to easily accommodate as many as twelve small pans or any configuration of larger and smaller sized pans including a supersized fish kettle.

The hob has 15 power level settings and because it's induction it's extremely safe and efficient to use, as only the contents of the pan are heated. Child safety locks provide added peace of mind.

### SAFETY

When using an induction hob only the pan and its contents become hot, while the glass ceramic surface remains cool to the touch. Induction zones will also automatically switch off if a pan is not detected, so it's amazingly safe to use, ideal if there are children present.

### CLEANING

During use the surface temperature of the hob remains very low, so any spills don't burn on to the cooking zone, this makes it remarkably easy to wipe clean.

### SAVINGS

Induction hobs are highly energy efficient and are more cost effective to use than any other hob.

### CHILD LOCK

All the Induction hobs in the Hoover range are equipped with a child lock, to prevent little hands from adjusting the controls.

### HEAT INDICATOR LIGHTS

Illuminates zones in use.

### MEMORY FUNCTION

Facility to store favourite recipe cooking times.

### END OF COOKING TIMER

Set the minute minder up to a maximum of 99 minutes and the power will switch off automatically when the cooking time has elapsed.

FLEXI HOB - MULTI-ZONE

FLEXI HOB - TWO ZONES

### LOW ABSORPTION INDUCTION HOB

For easy installation, the Hoover HBP430BLA/1 Low Absorption Induction Hob comes complete with a 13 amp plug. It's intelligent heat distribution system means it uses less than half the energy of standard induction hobs.

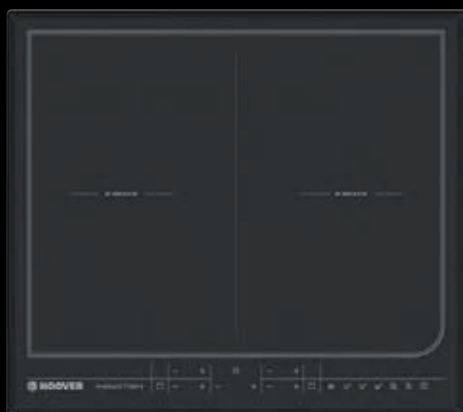

#### HVEF 742X

- 75cm 4 Zone ceramic hob
- 9 Power levels
- Touch sensitive digital controls
- 4 Hi-light cooking zones
  - 1 x Extended cooking zone
  - 1 x Booster cooking zone
- End of cooking timer on all zones (up to 99 minutes)
- Memory function
- Heat indicators
- Child safety lock
- Front stainless steel trim

## GHISA HOB DESIGN

### AN EXCLUSIVE AWARD WINNING DESIGN

Visually Striking, the new Hoover Ghisa gas hob is a truly unique appliance that combines a futuristic Cast Iron design with a revolutionary patented burner technology. Integrated pan supports and LED lighting surrounding each of the controls add that final touch of elegance.

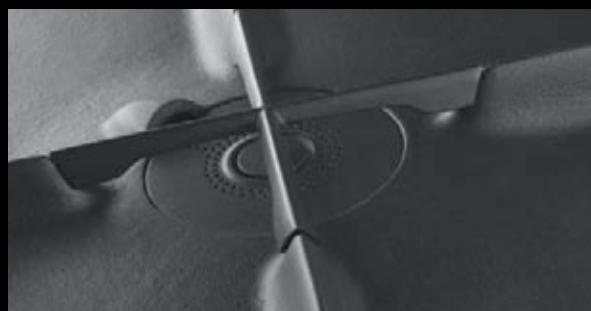

### NEW BURNERS

Ghisa's Premix burner technology skillfully mixes forced air and natural gas to guarantee maximum efficiency. Gas and air is mixed just prior to ignition and a small fan then forces the air into the burner which creates optimum ignition conditions.

A vertical rather than circular flame is generated and is directed to the base of the pan which helps reduce heat loss and with an overall hob height of 28mm, compared to the more traditional height of 45mm the distance between the bottom of a saucepan and the burner has been considerably reduced. This not only gives the hob a very distinctive sleek, almost flat appearance when installed in the worktop, but it makes it more energy efficient too.

### A BESPOKE APPLIANCE

Each Ghisa hob is cast in its own mould which is used only once. So each piece is individually created and has a unique production number and its own certificate of authentication.

#### HF9

- Ghisa 3 burner gas hob
- 1 Ultra-rapid burner, 1 rapid burner, 1 auxiliary burner
- Control knobs with LED blue light
- Flame failure safety device
- Single hand automatic ignition
- Moulded integrated pan supports
- Pan support bridge

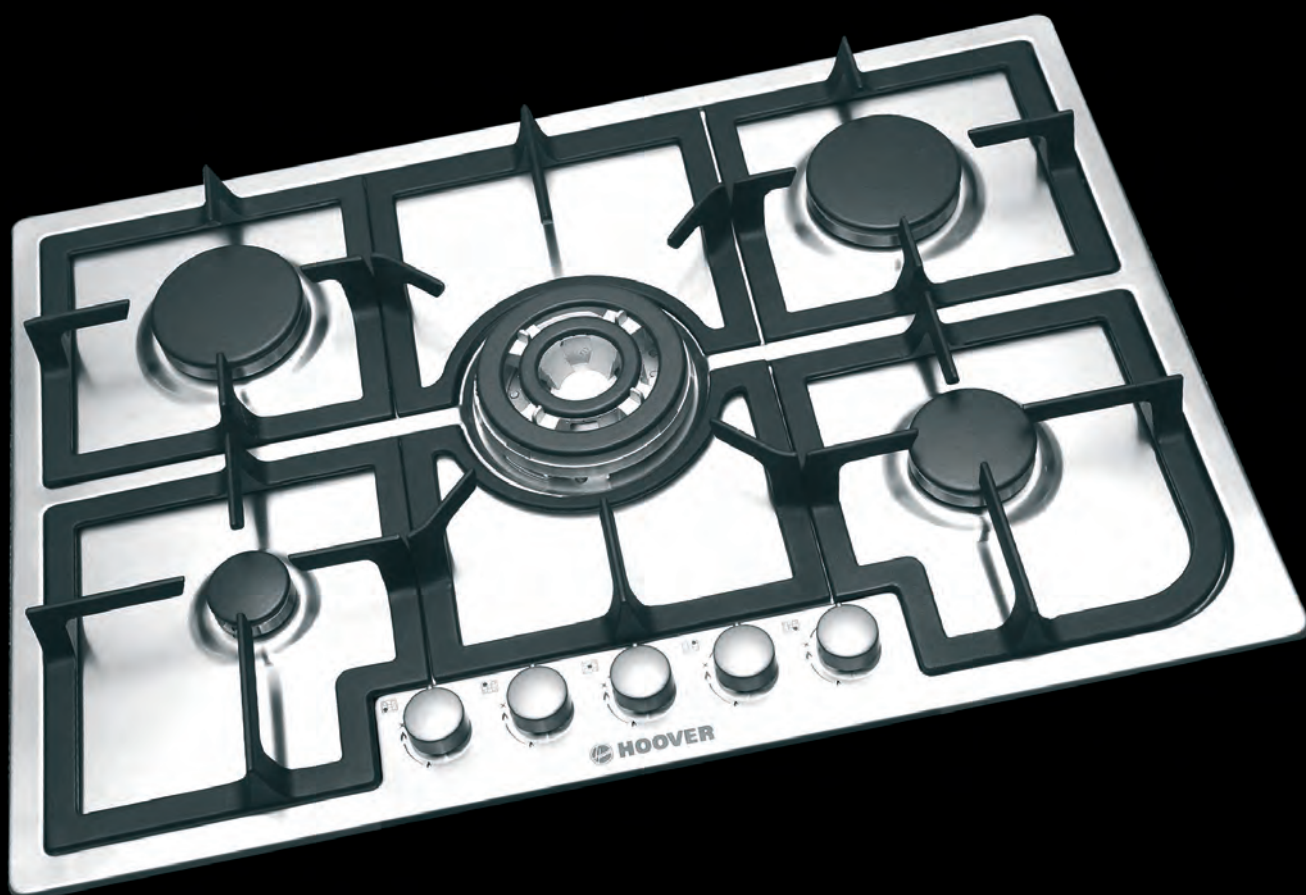

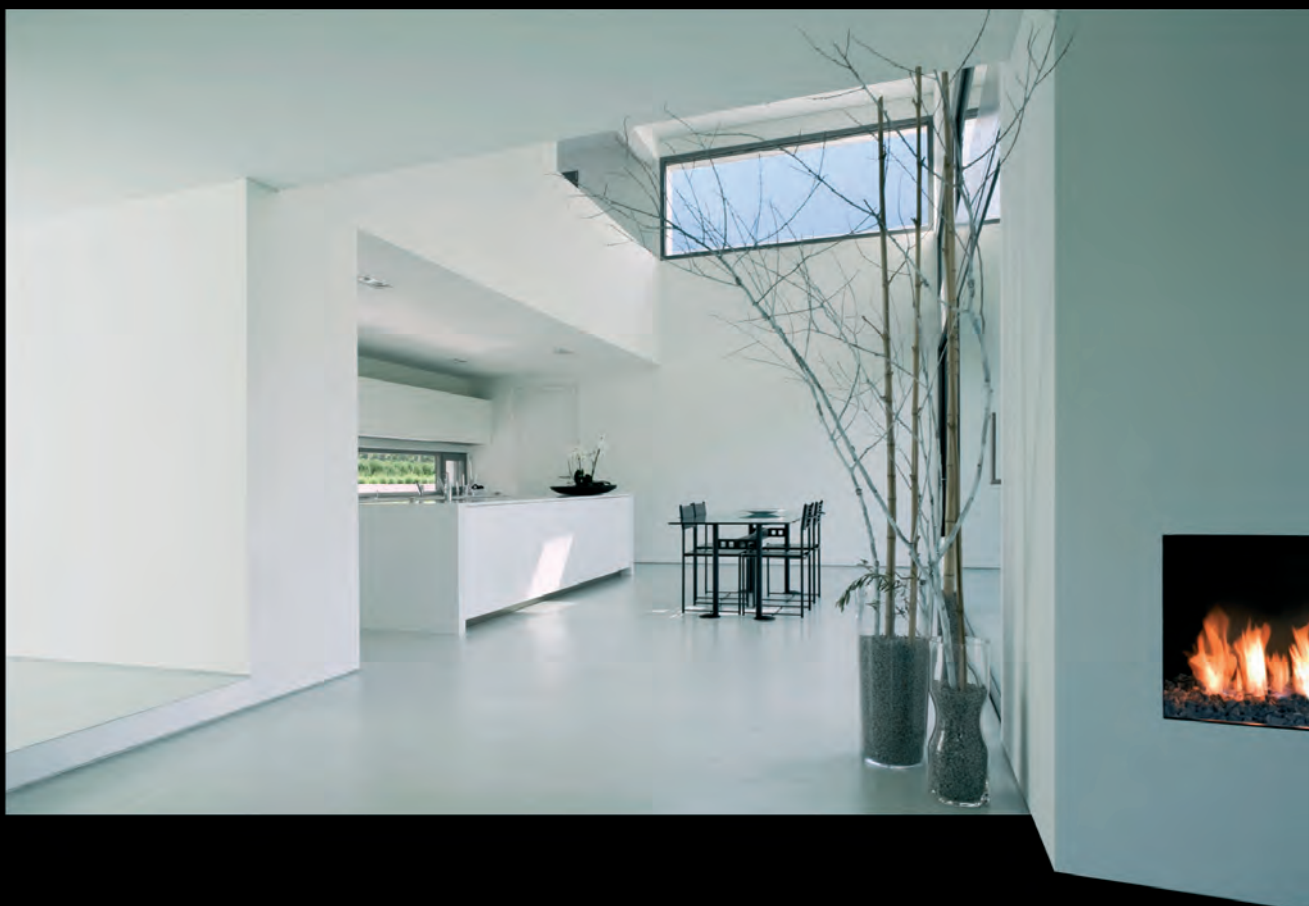

#### HF7

- Ghisa 4 burner gas hob
- 1 Ultra-rapid burner, 2 rapid burner, 1 auxiliary burner
- Control knobs with LED blue light
- Flame failure safety device
- Single hand automatic ignition
- Moulded integrated pan supports
- Pan support bridge

With accessible frontal controls, specially designed cast iron pan supports aid rapid heat distribution. A choice of triple or quadruple ring burners that will satisfy even the most demanding of cooks. Hoover gas hobs have a professional durable quality.

# FLAME FAILURE SAFETY DEVICE

This safety system protects against accidental gas leakage, automatically cutting off the gas supply if the flame is accidentally extinguished. It does not require a power source to work and is completely maintenance free.

## QUADRUPLE RING BURNER

Four separate concentric circles of flame are directed onto the base of the pan, this provides consistent heat distribution even when using large pans.

### HGH 74 SQCX

## GINGER RÉ

### GINGER RÉ

Serves 4

100g fresh ginger  
2 Shallots  
6 Courgettes  
8 Tomatoes  
25cl Coconut milk  
6 Fish fillets  
Olive oil  
Chives

Grate the ginger and finely chop the onions.

Gently fry together in a pan with olive oil.

Dice the courgettes, add to the pan and cook over high heat for approx 10 minutes.

Clean and chop the tomatoes, add to the courgettes and continue to cook for a further 3 minutes, add the coconut milk to the mixture.

Place the fillets of fish over the mixture, cover and cook for a further 7 minutes.  
(the fish must not be overcooked)

Garnish with chives and serve with basmati rice.

## AESTHETICS AND PERFORMANCE

### FUNCTION DISPLAY

The Stainless steel extractor hood RDL910X will make real style statement in your kitchen. With its designer good looks and illuminated white LED display the power level and function selected are illustrated by the intensity of the light emitted.

### A HOOD TO SUIT ALL KITCHEN ENVIRONMENTS

The comprehensive range of Hoover décor and standard hoods means that you can choose just the right one for your kitchen. Halogen lights deliver perfect illumination directly onto the cooking area and are more energy efficient than other lighting systems.

### CONCEALED POWER CABLE

With the power cable neatly tucked away inside the ceiling fixing bar the RDL910 X has a sleek contemporary appearance.

- Motor power 130W
- Maximum extraction flow rate 470 m<sup>3</sup>/h
- Dishwasher safe metal filters
- Charcoal filters included
- Stainless steel with glass canopy

#### **HCT 9700X**

- 90cm Chimney Hood
- Electronic touch controls
- 4 Speed extraction settings
- Re-circulation or extraction modes
- 2 Halogen lights
- Filter saturation indicator
- Clean air function
- Timer
- Motor power 250W
- Maximum extraction flow rate 700 m<sup>3</sup>/h
- Dishwasher safe metal filters
- Charcoal filters included
- Stainless steel

#### **HCT 6700X**

- 60cm Chimney Hood
- Electronic touch controls
- 4 Speed extraction rate settings
- Re-circulation or extraction modes
- 2 Halogen lights
- Filter saturation indicator
- Clean air function
- Timer
- Motor power 250W
- Maximum extraction flow rate 700 m<sup>3</sup>/h
- Dishwasher safe metal filters
- Charcoal filters included
- Stainless steel

#### **HBP 612/1GR**

- 60cm Integrated hood
- Slider controls
- 3 Speed extraction rate settings
- Recirculation or extraction modes
- 2 x 28W Halogen lights
- Motor power 110W
- Maximum extraction flow rate 230 m³/h
- Charcoal filters included
- Grey

#### **HBG 60/2S**

- 60cm Canopy hood
- Slider controls
- 3 Speed extraction rate settings
- Recirculation or extraction modes
- 2 x 28W Halogen lights
- Motor power 150W
- Maximum extraction flow rate 220 m³/h
- Charcoal filters included
- Silver

#### **HFT 60/2**

- 60cm Canopy hood
- Push button controls
- 3 Speed extraction rate settings
- Recirculation or extraction modes
- 2 X 28W Halogen lights
- Motor power 180W
- Maximum extraction flow rate 220 m³/h
- Charcoal filters included
- White/Black/Silver

MAKE A BOLD STYLE STATEMENT IN YOUR KITCHEN

Finished in high quality Stainless Steel Hoover range cookers with their contoured design and choice of gas or ceramic hob will make a stylish statement in your kitchen. Hoover range cookers are now available in Stainless Steel, Black & Stainless and Ivory & Stainless.

#### WOK STAND

The intense heat generated by the triple ring burner is perfect for fast Wok style cooking, ensuring that the flame is evenly dispersed from the centre of the burner right to the outer edges

#### ELECTRONIC DISPLAYS

Our easy to use interactive touch control displays are designed to make life easy.

Clear electronic LED displays show time and pre-programmed start and end of cooking times.

### HGD 9395IX/BL/IV

#### • Hob features

- 5 Gas burners (1 wok, 1 rapid, 2 semi rapid, 1 auxiliary)
  - 1 x Wok burner 3.8kW
  - 1 x Rapid burner 3kW
  - 2 x Semi rapid burners 1.75kW
  - 1 x Auxiliary burner 1kW
  - Cast iron pan supports and wok stand
  - Single hand ignition
  - Flame failure safety device

#### • Multi-function main oven

- 6 Functions
- Fan cooking
- Conventional cooking
- Top element cooking
- Bottom element cooking
- 2 Shelves and 1 baking tray
- Grill
- LED touch control programmer
- Integral fan cooling system
- Double glazed door
- 51 Litre capacity
- Oven light
- Energy rating A

#### • Conventional second oven

- Conventional cooking
- Grill
- 1 Shelf and 1 baking tray
- Integral fan cooling system
- Double glazed door
- 35 Litre capacity
- Energy rating A

#### Additional features

- Adjustable stainless steel feet
- 1 Storage drawer
- HGD 9395IX Stainless steel
- HGD 9395BL Black & Stainless
- HGD 9395IV Ivory & Stainless

#### Optional extras

- Stainless steel splashback PM 90X
- Matching hood HCT9700X (stainless steel)

## HVD 9395IX/BL/IV

### • Hob features

- 5 Ceramic cooking zones
  - 1 x 140/210mm - 1.1/2.2W
  - 2 x 140mm - 1.2kW
  - 1 x 190 x 285mm - 1.4/2.2kW
  - 1 x 210mm - 2.1kW
- Extended zone
- Booster zones
- Residual heat indicators

### • Multi-function main oven

- 6 Functions
- Fan cooking
- Conventional cooking
- Top element cooking
- Bottom element cooking
- 2 Shelves and 1 baking tray
- Grill
- LED touch control programmer
- Integral fan cooling system

- 35 Litre capacity
- Energy rating A

### Additional features

- Adjustable stainless steel feet
- 1 Storage drawer
- HVD 9395IX Stainless steel
- HVD 9395BL Black & Stainless
- HVD 9395IV Ivory & Stainless

### Optional extras

- Stainless steel splashback PM 90X
- Matching hood HCT9700X (Stainless steel)

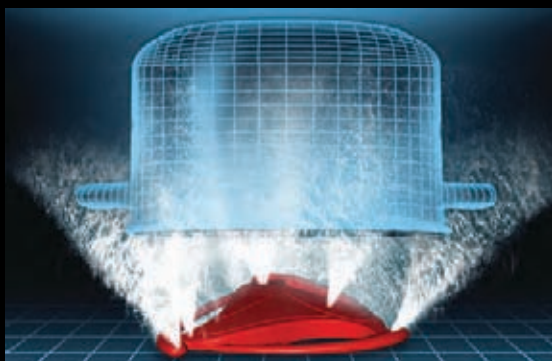

## GREAT PERFORMANCE WITH LOWER RUNNING COSTS

### POWERWASH

The Hoover Powerwash dishwasher has an additional third spray arm, which operates independently from the other two to provide a high intensity wash. When the Powerwash programme is selected the 3rd spray arm, complete with 6 multi directional water jets, directs a highly concentrated water and detergent solution onto the crockery at the back of the lower basket.

This powerful wash is 4 times more efficient than a traditional dishwasher and ensures that even the most heavily soiled dishes and pans come out spotlessly clean and sparkling.

### 3D MAXI BASKET

The 3rd top basket in the 15 place setting dishwashers provides 10% more room for glassware, cups, bowls and small plates. It is also height adjustable even when full.

### LOWER XXL BASKET

Pure innovation: With an enlarged loading area the new basket design can easily accommodate both standard plates and large items like baking trays and pans.

### EXTRA SPACE IN YOUR KITCHEN

The new third basket offers an extra loading level for those non standard items such as cooking utensils and very small crockery. This helps to free up space for more dishes in the lower two baskets.

### HLSI 400 PW

# INTELLIGENT TECHNOLOGY COMBINING THE ULTIMATE WASH PERFORMANCE WITH MINIMAL WATER AND ENERGY CONSUMPTION.

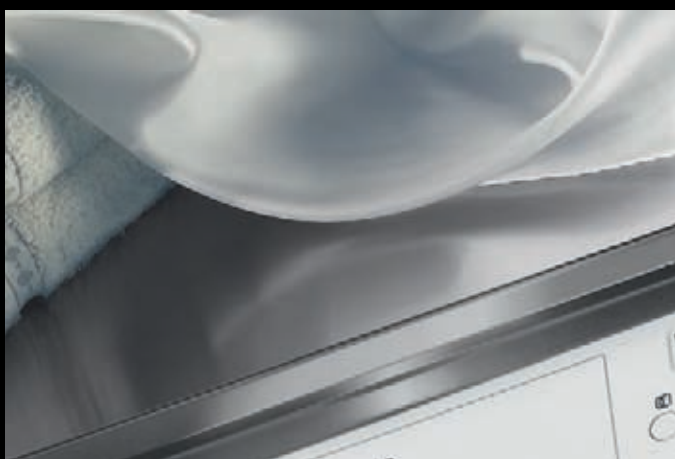

## FUZZY LOGIC CONTROL

Fuzzy Logic technology controls Hoover washing machines with an automatic load detecting system that determines how much laundry is in the drum and makes sure that only the exact amount of water and energy required are used during the wash cycle. It also regulates water temperature and adjusts programme time.

## EFFICIENT LAUNDRY CARE

The Hoover washer dryer combines an outstanding A wash performance with an efficient but gentle drying action that guarantees total protection for all your laundry. The sophisticated condenser drying system means that condensed water vapour can be quickly and conveniently discharged through the outlet hose.

A+ rated Hoover washing machines are 10% more energy efficient than even the highest A rated washing machines, saving electricity and time without compromising on wash performance.

#### **HDB 854DN/1**

- Fully integrated washer dryer
- 8Kg Large wash load capacity
- 5Kg Drying capacity
- 1400 Spin speed
- LED display
- Digital countdown indicator
- 12 Wash programmes
- 2 Drying programmes
- 14, 30 & 44 Minute wash programmes
- Start delay (up to 23 hours)

- Spin drying efficiency class A

## FULLY INTEGRATED REFRIGERATION

**SPACIOUS AND EFFICIENT**, choose the perfect model from our extensive range of refrigerators to suit your lifestyle.

### COOL VERSATILITY

Our appliances will co-ordinate beautifully with your kitchen and offer flexible storage, automatic defrosting, reversible doors, adjustable fridge shelves and deep, pull out freezer drawers.

Hygienic, spill resistant glass shelves prevent cross contamination of stored food and are easy to remove for cleaning.

What's more all of our refrigeration is rated A+ for energy efficiency.

### HFFBP 3050K

- Fully integrated frost free fridge freezer
- Freezer rating
- Total gross capacity 242 litres (8.8 cu.ft)
- Net refrigerator capacity 156 litres (5.5 cu.ft)
- Net freezer capacity 78 litres (2.8 cu.ft)
- 24 Hr freezing capacity 4kg
- Energy efficiency class A+
- 3 Glass shelves
- Metal bottle holder
- 1 Extra large salad crisper
- Reversible doors
- Climate class SN/ST
- Housing dimensions:
  - Height mm 1770 - 1776
  - Width mm 560
  - Depth mm 550

A+ Class

### HBCP 3150K

- Fully integrated fridge freezer
- Freezer rating
- Energy efficiency class A+
- Total gross capacity 261 litres (9.2 cu.ft)
- Net refrigerator capacity 203 litres (7.2 cu.ft)
- Net freezer capacity 60 litres (2.1 cu.ft)
- 24 hr freezing capacity 3kg
- Climate class ST
- 3 Glass shelves
- LED internal lighting system
- Metal bottle holder
- 1 Extra large salad crisper
- 4 door shelves
- 2 Adjustable feet
- Reversible doors
- Housing dimensions:
