**Miele**  
TIMMER BESSER

# Welcome to Miele

Miele was founded in Germany in 1899 by Carl Miele and Reinhard Zinkann and has always been a family-owned, family-run company.

Since the beginning, the Miele motto has been “Immer Besser”, or “Forever Better”, and it’s thanks to this philosophy that the brand is identified with supreme product quality worldwide – leading the market for over a hundred years.

# Quality guaranteed

## Tested for 20 years' average use

To ensure that Miele appliances will stand the test of time and give unbeatable performance for up to 20 years, we really put them through their paces in our test laboratories before full production commences.

We offer the following free guarantees, which include parts and labour, on our dishwashers:

- ★ A lifetime guarantee on door springs
- ★ A lifetime guarantee against flooding on waterproof models.

We run a 75°C programme for 7,500 cycles – this equates to one load a day for more than 20 years.

We put every door through 100,000 opening and closing cycles – the equivalent of 13 cycles a day for more than 20 years.

Then we pull baskets out and push them back in 100,000 times, fully loaded – which equates to one wash a day for more than 273 years.

# Our dishwasher range

As you close the door of your Miele dishwasher for the first time and wait for your chosen programme to commence, consider this.

No detail, inside or out, has been overlooked.

Your Miele has been engineered and tested to perfection; it will be cleaning your crockery, cutlery and glassware perfectly for years to come.

Our baskets and unique 3D cutlery tray are designed to offer you unrivalled flexibility.

And the exterior has been finished to complement the other Miele appliances in your kitchen.

Finally, if you feel like chatting about any of the above while you're standing there, please do. Our dishwashers are so quiet, your conversation won't be interrupted.

# The Miele difference

## AutoOpen Drying

The door opens automatically at the end of a programme, allowing your dishes to dry completely before unloading.

## SoftClose

SoftClose prevents the door from slamming shut, no matter how much force is used. A gentle push is all it takes.

## In door salt container

The salt container is conveniently located in the door, instead of beneath the basket, making it easier to refill.

## Turbo

By changing temperatures in the main wash and final rinse, and by reducing the holding time in the rinse cycle, the Turbo function reduces the duration of programmes by an average of 30%. This saves you time without varying the cleaning and drying performance.

## Waterproof anti-leak system

This system features a double-skinned inlet hose and a solenoid valve which is attached directly to the stopcock. So if there's a leak, the water supply will be shut off automatically to protect your kitchen from damage.

## 3D cutlery tray

The flexible 3D cutlery tray includes two side sections that can be modified to make room for larger utensils or long-stemmed glasses.

## Perfect GlassCare

Frequent dishwashing can leave your glasses cloudy – not with the Miele GlassCare system. It uses a unique sensor-controlled water softener to keep your glassware looking like new.

## Automatic load recognition

The Automatic load recognition feature adjusts water consumption to let just the correct amount of water into the dishwasher.

## DetergentAgent

Whichever detergent you use, the DetergentAgent function adjusts the wash cycle to suit – for best results.

## Child-safety device

A safety device integrated into the handle recess provides ingenious protection against tampering little fingers.

## Eco Sensor Plus

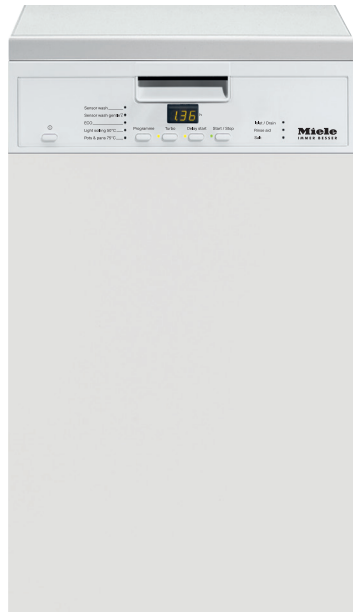

This function uses a light beam to measure turbidity of the water and then uses this information to adapt the programme to suit the degree of soiling. So if you choose the wrong programme your dishwasher will compensate automatically.

## Auto Sensor

Models with Sensor Wash feature Auto Sensor which differentiates between particles and bubbles for the most accurate results. The dishwasher automatically adjusts water consumption, programme duration and temperature to provide you with a truly automatic programme.

# Freestanding dishwashers

## G4501 SC

<b>Energy Rating:</b>	A++
<b>Dimensions*:</b>	845 x 448 x 600mm
<b>Decibel Rating:</b>	46
