Refrigeration Range 2013

Miele
IMMER BESSER

Welcome to Miele

Miele was founded in Germany in 1899 by Carl Miele and Reinhard Zinkann and has always been a family-owned, family-run company.

Since the beginning, the Miele motto has been “Immer Besser”, or “Forever Better”, and it’s thanks to this philosophy that the brand is identified with supreme product quality worldwide – leading the market for over a hundred years.

Miele quality tested

All Miele appliances are put through their paces at our test laboratories in Gütersloh, Germany, to ensure they’ll stand the test of time and deliver unbeatable performance.

No one tests their refrigerators and freezers like we do. That’s why they’re renowned for their legendary performance.

- ★ We test our compressors for 50,000 hours
- ★ We open and close our doors 100,000 times – that’s 12 times a day, every day, for more than 22 years
- ★ We load our doors with 68kg to check they open perfectly under strain. That’s the equivalent of 66 pints of milk
- ★ We ensure our appliances work in temperatures up to 43°C. No matter where you live in the world, Miele can cope
- ★ We test our glass shelves to hold up 35kg – that’s the equivalent of two-and-a-half 30lb turkeys.

Also, all our refrigeration products are CFC and HFC free. We’ve replaced these harmful substances in the insulation material with Pentane and use a more environmentally friendly refrigerant too.

Recommended by Energy Saving Trust

Refrigeration appliances are amongst the biggest consumers of domestic energy, because they’re on 24/7.

However, all Miele appliances are recommended by the Energy Saving Trust and have up to an A++ rating – meaning they’re good for the environment and have significantly lower running costs. Look for the label – it’s your guarantee that the product you’re buying is among the most energy efficient on the market.

Maximising storage

VarioRoom is a flexible solution for maximising storage. It allows you to arrange shelves and drawers to store upright bottles or bulky items – like a Christmas turkey. And with the added benefits of Dynamic Cooling, which circulates the air evenly throughout the entire compartment, you can stock up on even more food with confidence.

Our refrigeration range

In the Miele range of fridges, freezers, fridge freezers and wine coolers, style and performance meet.

On the outside, clean lines and effortless design, finished in stainless steel or white. On the inside, endless innovation and stunning functionality, illuminated by bright, energy efficient LED lighting. Everywhere, meticulous attention to detail. We have taken the art of refrigeration to a new level.

Our refrigeration range includes freestanding and integrated appliances in a variety of heights and widths. Browse through and you'll discover the brilliance of PerfectFresh, the convenience of the Alarm and Frost Free Technology, and why every refrigerator should come equipped with Active AirClean Filters. You'll even discover why all of our appliances are super quiet.

Product features

User Convenience

Alarm

To protect your food, an alarm sounds if your refrigerator or freezer door is left open – or if the temperature rises unexpectedly as a result of a power cut.

Dynamic Cooling
With the Miele Dynamic Cooling system, every square

inch of your fridge will be chilled to the desired temperature. And that means you can use all the space with confidence.

Super Cool and Super Freeze

The Super Cool and Super Freeze functions are handy for those occasions when you want to chill food and drinks or freeze fresh produce as quickly as possible.

SoftClose
The SoftClose mechanism prevents the door from

slamming shut and your bottles from falling over. And if it's left ajar, it will close by itself – even with the shelves fully loaded.

EasyOpen Lever Handle
Our EasyOpen Lever Handle is cleverly

designed to release the seal and open the door with ease. Depending on the appliance, it is available in solid stainless steel or stainless steel finish.

Easy Care

Frost Free
With frost-free appliances, defrosting is a thing of the past. By circulating the air, picking up the moisture and draining it away, there's no build-up of frost inside the cabinet or on any food that gets pushed to the back of your fridge.

CleanSteel
CleanSteel appliances require very little cleaning

to keep them looking great. The unique finish not only looks attractive, but resists irritating marks such as finger prints.

ComfortClean
ComfortClean door shelving is fully adjustable, so you

can store your bottles upright, and is made from temperature resistant transparent plastic – which helps to protect it from scratching.

Deep Freezer Drawers

With transparent drawer fronts, it's easy to check the contents of your freezer's drawers. Enclosed sides contain accidental spillages.

Lifestyle Features

PerfectFresh
PerfectFresh is an innovative system that creates bespoke temperature zones for different foods and drinks. By carefully controlling humidity levels, your fruit, vegetables, fish, meat and poultry can be kept in perfect condition for much longer.

Ice Cube Maker
You can never have enough ice. Our brilliant high

capacity ice cube maker can produce 100 – 120 perfect cubes in just 24 hours, so even if you suddenly have a party on your hands, your drinks will be beautifully chilled.

TouchControls
Easy to use and effortless to keep clean, our intuitive

TouchControl panel has a totally smooth operating interface with sensor controls and digital display.

Active AirClean Filters

Our Active AirClean filters are designed to eliminate the strong smells normally associated with fish and cheese. And that means no overpowering odours when you open the fridge door.

Fridge Freezers

KT 12510 S - 1

Design:	White
Energy Rating:	A++
Dimensions*:	157 x 55 x 62.8 cm
Decibel Rating:	40
Total Net Capacity (L):	269
Key Features:	LED Lighting

KDN 12823 S - 1

Design:	White
Energy Rating:	A+
Dimensions*:	182 x 60 x 63 cm
Decibel Rating:	41
Total Net Capacity (L):	321
Freezer Drawers:	3
Key Features:	Super Freeze

KFN 12823 SD - 1

Design:	White
Energy Rating:	A+
Dimensions*:	182 x 60 x 63 cm
Decibel Rating:	41
Total Net Capacity (L):	320
Freezer Drawers:	3
Key Features:	Super Freeze

Fridge Freezers

KFN 12924 SD - 1

Design:	White
Energy Rating:	A+
Dimensions*:	201 x 60 x 63 cm
Decibel Rating:	41
Total Net Capacity (L):	354
Freezer Drawers:	4
Key Features:	Super Freeze

KFN 12923 SD - 2

Design:	White
Energy Rating:	A++
Dimensions*:	201 x 60 x 63 cm
Decibel Rating:	41
Total Net Capacity (L):	369
Freezer Drawers:	3
Key Features:	Super Freeze

KFN 12924 SD edt/cs - 1

Design:	Stainless Steel
Energy Rating:	A+
Dimensions*:	201 x 60 x 63 cm
Decibel Rating:	41

Wine conditioning

The Romans were the first to discover the benefits of storing wine underground.

They realised that when wine was stored in the dark and in a cool and even temperature, it aged better and stayed fresh for longer. With Miele wine coolers, the principles are the same.

Precision temperature controls, charcoal air filters, tilted shelves and a tinted glass door carefully create the perfect environment for your fine and favourite wines. And that means every bottle will be ready when you are.

KWT 6831 SG

Energy Rating:	B
Dimensions*:	192 x 70 x 74.5 cm
Decibel Rating:	38
Total Net Capacity (L):	505
	(Equivalent to 178, 0.75L bordeaux bottles)

KWT 6832 SGS

Specification as above but includes Sommelier set in middle zone

Temperature Controls

Electronic controls maintain precise temperature settings to create the perfect climate for your wine.

Temperature Zones

Three independent temperature zones allow you to preserve all the aromas and flavours of your favourite bottles of red, white and champagne at the same time – by maintaining optimal humidity, and ensuring it is stored and served at the perfect temperature.

Tinted Glass Door

A UV-resistant, tempered glass door offers protection from UV light – which can have damaging effects on the condition of your wine. The integrated side handle disappears

in to the door and includes a soft close damper, ensuring your wines can mature undisturbed.

Storage Shelves

There's ample storage for your wines to either mature properly or keep without spoiling with FlexiFrame. The thirteen wooden shelves comprised of individual fillet strips that can be repositioned in the frame and adjusted perfectly to different bottle types. To ensure that each rack has its own character, both models come with attractive, easily removable metal strips that are coated with blackboard paint for use with chalk, creating the perfect note board.

Compressors

Vibrations from other appliances can damage your wine. With special compressors, which ensure quiet, vibration free storage, you can leave your wine to mature in peace.

Active Charcoal Filters

Active charcoal filters provide fresh air ventilation within the cooler and remove any unwanted odours to prevent contamination of your wine.

Sommelier Set

For the first time it is possible to decant wine in the unit and prepare for serving.

Miele Glass Holder

With the Miele Glass Holder wine glasses can be cooled to a pleasant temperature in the wine conditioning unit, meaning sparkling and white wines retain their freshness and temperature for longer!

Hinged Lever Strips

With the aid of hinged lever strips, the decanting rack (one each in upper and middle zones) can be slightly inclined, enabling the wine sediment to slowly settle to the bottom.

Miele Accessory Box

The Miele Accessory box offers intelligent storage for sundry utensils such as corkscrew and chalk. And even allows opened bottles to be stored in their perfect conditions, with individual adjustable separators for more than one bottle.
