Cassettes

Optimyst Cassettes are perfect for creating a see-through fireplace, media wall or an eye-catching fireplace of your dreams. The range is truly unique and offers a choice of installation options for both domestic and commercial environments.

Available in 500 or 1000 modules, this bespoke range allows up to 5 cassettes to be connected in series from one outlet. All features can be controlled with the remote supplied or from the manual controls on the module enabling you to adjust the flame intensity and crackling log sound effect.

Optimyst is the world's most realistic 3D electric flame, patented by Dimplex. This unique flame effect is generated by an innovative combination of water vapour and light offering a stunning illusion of a three-dimensional flame which is almost impossible to distinguish from the real thing.
